

Solving the Challenges of CME

45% of hotels booked, on average, currently fall into the direct-bookings category

Budget Data Isn't Always Timely or Accurate

budget, spending outside of policy, or in the worse case, fraud. On the other hand,

The ability to approve and deny expenses before they happen protects your healthcare organization from risk – ensuring compliance with laws such as the Sunshine Act, and saving you money in the long run.

See CME Spending in One Place

Concur's budget tool provides a single view of CME spending across all departments and locations. It allows you to track spending in real-time, identify trends, and take action before expenses are incurred. This helps you stay on budget and avoid costly surprises.
