# Cut costs and optimize cash management with Expense Pay

What does it cost your organization to generate an expense reimbursement or corporate card payment? Probably more than you think. The increasing demands on your limited resources can slow payment cycle times to corporate card providers and employees. How do you streamline the procurement to pay cycle by automating this tedious process?

Expense Pay from Concur automatically pays employees and corporate cards, enabling your people to focus on driving growth, not processing paper. By integrating the entire process—from procurement through payment—your organization can finally take complete control.

Reduced payment pain

Better visibility for you and your employees

Increased control and cost savings
